2. Introduction

If anyone looking forward to making beautiful movements towards best photograph framework then you are at the right spot.

This website is to visualize how making your beautiful movements into perfect memories into a high-quality HD image. This website helps people to choose what kind of shoots they want what kind of gift they want to gift their loved ones.

This website is mainly focused on placing an order through the site by signing in. It can be a Shoot or any products in the shop. Customers Information are saved in backend and used for placing order.

3. Objectives

1. A person Should be able to view all the products available in the Store with or without signing in.
2. To able to place order by Signing In
3. The main objective of this website is to view products or place order where ever they are in Bangalore so that they get the product at their door step.

4. Proposed System

This website doesn't have any existing System. In Proposed System the admin will maintain a wide range of products at affordable prices for customers and it makes easier for those who buy in the products.
